## Garrison Calls Report 'Fairy Tale'

FOIAb3b

By DAVE GORDON

New Orleans Dist. Atty. Jim Garrison in a speech here called the official version of the Kennedy assassination a "fairy tale" and accused President Johnson of "concealing evidence on the assassination" by having records locked up.

Garrison spoke before a large gathering at University of New Mexico Johnson Gymnasium as part of the Associated Students lecture series Thursday night.

The Louisiana lawyer told the audience that so long as President Johnson "continues to conceal evidence Americans have to think about the possibility Johnson was aware of the assassination plans before the assassination."

**GARRISON'S REFERENCES** to concealment were in regard to locking up the autopsy pictures of the assassination for 75 years. This was done by the Warren Commission.

He said these questions should be asked: "Who appointed the Warren Commission"; "Who controls the CIA which has hidden much evidence"; the FBI; "Who made the decision we can't see the autopsy pictures?" — the answer is President Johnson, he said.

"I don't think he (Johnson) participated," Garrison said, "but it would be nice if they (the autopsy pictures of the late President John Kennedy) were made available."

He said there is a "unique interest" in the government wanting to "conceal the truth" of the assassination.

**THE TRUTH**, as Garrison sees it, includes:

—Lee Harvey Oswald did not fire a gun the day of the assassination.

—Rifle shots came from at least four places including a sewer from which Kennedy was shot at with a .45 caliber weapon (which he claims was found and later acknowledged by federal officials).

— Police Officer Tippett, of Dallas, was killed by two men, and at least 10 to 15 men were involved.

He **LIKENE**d the official version of the assassination to the story of "Snow White and the Seven Dwarfs." Garrison said at first "I believed it because these (the Warren Commission) were honorable men. But . . . the bigger the lie, the more honorable the men."

Garrison called the Warren Report a "network of lies and half-truths . . . to fool you!" He said the government has hindered his investigation which began after he "stumbled" onto some evidence.

Regarding the "sewer shot," he said a network of drainage pipes runs under the ground to the sewer and quoted witnesses as saying one shot on the assassination day was "different" and "sounded like it came from a cave."
